

WHERE CAN I SERVE AT LIBERTY?

HOST TEAM

Our team sets the tone - friendly, welcoming and joyful! This role involves meeting people at their vehicles with an umbrella when the weather is unpleasant, greeting people at the doors, ensuring visitors know what to expect, assisting people to their seats, distribution of communion and to help maintain a distraction-free environment.

CAFÉ TEAM

Our team creates a social culture by providing a welcoming and professional service. From taking orders and serving barista made coffee served with a smile!

KITCHEN TEAM

Our team takes pride in food preparation and plating for Sunday service fellowship, keeping the kitchen clean and packing away food once fellowship has concluded. It can also involve cooking or reheating of food for a church lunch, or helping plan and execute menus for different church events (Aspire Women's Conference, Luncheons, Mother's Day, etc)

LIBERTY TOTS

Our team cares and provides a safe and fun environment for some of our youngest church members. We tell bible stories, sing songs, play games and provide hands-on activities.

(Background check and WWCC required)

LIBERTY KIDS

Our team invests into the lives of young children and future leaders. We place importance on creating a safe environment where we provide biblical teachings, watch bible-based videos and play games.

(Background check and WWCC required)

WORSHIP TEAM

Our team believes in using our musical talents to worship God and help lead others into a place of worship by ushering in God's Spirit. We understand it is not about us or a performance, but about bringing our best to God in worship to Him.

PRODUCTION TEAM

Our team focuses on excellence for our Sunday services. We ensure the lighting, Lyrics for songs and scriptures are readily available for the congregation to help them follow and be a part of a Sunday service. We concentrate on media production, audio, lighting & streaming (which is especially important for our members who can't attend in person)

SOCIAL MEDIA TEAM

Our team enjoys capturing meaningful moments through photography and videography during a Sunday service and at events. We use this for content creating and website development, as well as keeping social pages up to date to ensure we are providing people with the latest news or events taking place.

MAINTENANCE TEAM

Our team believe the church is God's House and know that creating a functional, clean and well-maintained space is of vital importance. We believe the internal and external should be upheld to a level of excellence to create a warm and inviting space for all, whether that be through minor updates like spot cleaning carpet or major updates like renovating a bathroom; no job is too big or too small!

HELPING HANDS TEAM

Our team has a heart for those that are in need. Whether it be a new baby, sickness/injury or the loss of a loved one- we look to bless others through meals and comfort.

EVENTS PLANNING TEAM

Our team love planning and design for all church-wide events! We enjoy working as a team to plan, organise and set up/pack up of decorations, and help facilitate the smooth running of events.
